AUTHORIZED
INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT, SOFTWARE AND SERVICES

Contractor has been awarded cooperative purchasing and disaster recovery programs for all SINs.

SPECIAL ITEM NUMBER 132-8 – PURCHASE OF EQUIPMENT
FSC CLASS 7010 – SYSTEM CONFIGURATION
- End User Computers/Desktop Computers
- Professional Workstations
- Servers
- Laptop/Portable/Notebook Computers

FSC CLASS 7025 – INPUT/OUTPUT AND STORAGE DEVICES
- Printers
- Displays
- Graphics, including Video Graphics, Light Pens, Digitizers, Scanners, and Touch Screens
- Network Equipment
- Storage Devices, including Magnetic Storage, Magnetic Tape, and Optical Disk

FSC CLASS 5805 – TELEPHONE AND TELEGRAPH EQUIPMENT
- Audio and Visual Teleconferencing Equipment

SPECIAL ITEM NUMBER 132-12 – MAINTENANCE OF EQUIPMENT, REPAIR SERVICE, AND REPAIR PARTS/SPARE PARTS (FPDS Code J070 - Maintenance and Repair Service)(Repair Parts/Spare Parts - See FSC Class for basic equipment)
- Repair Service
- Repair Parts/Spare Parts
- Maintenance
- Third Party Maintenance

SPECIAL ITEM NUMBER 132-33 – PERPETUAL SOFTWARE LICENSES
FSC CLASS 7030 - INFORMATION TECHNOLOGY SOFTWARE
- Microcomputers
  - Application Software

SPECIAL ITEM NUMBER 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES
- FPDS Code D308 Programming Services
- FPDS Code D311 IT Data Conversion Services

NCS TECHNOLOGIES, INC

INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation
SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.
For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage! ™ on-line shopping service (www.gsaadvantage.gov). The catalogs/pricelists, GSA Advantage! ™ and the Federal Acquisition Service Home Page (www.gsa.gov/fas) contain information on a broad array of products and services offered by small business concerns.
This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.
For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

[**X**] The Geographic Scope of Contract will be domestic and overseas delivery.
[ ] The Geographic Scope of Contract will be overseas delivery only.
[ ] The Geographic Scope of this Contract is domestic delivery only.

2. CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION:

Ordering and Payment Address

NCS Technologies, Inc.
7669 Limestone Drive
Gainesville, VA 20155

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number can be used by ordering activities to obtain technical and/or ordering assistance: 703-743-8500.

3. LIABILITY FOR INJURY OR DAMAGE
The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:

Block 9: G. Order/Modification Under Federal Schedule Contract
Block 16: Data Universal Numbering System (DUNS) Number: **96-100-3720**
Block 30: Type of Contractor: **Small Disadvantaged Business**
Block 31: Woman-Owned Small Business - **No**
Block 37: Contractor's Taxpayer Identification Number (TIN): **52-1822366**
Block 40: Veteran Owned Small Business (VOSB): **No**

a. CAGE Code: **1BEK6**

b. Contractor has registered with the Central Contractor Registration Database (SAM.gov).

5. FOB DESTINATION

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
132-8	30 Days
132-12	30 Days
132-33	30 Days
132-51	As negotiated

b. URGENT REQUIREMENTS

When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. DISCOUNTS

Prices shown are NET Prices; Basic Discounts have been deducted.

a. Prompt Payment: **NET30** from receipt of invoice or date of acceptance, whichever is later.

b. Quantity: **NCS may offer an additional quantity discount on a case-by-case basis. Ordering activities are encouraged to inquire about this discount when placing orders.**

c. Dollar Volume: **NCS may offer an additional dollar volume discount on a case-by-case basis. Ordering activities are encouraged to inquire about this discount when placing orders.**

d. Other Special Discounts (i.e. Government Education Discounts, etc.): **NCS offers the same discounts to these institutions as it does to all other Government customers.**

8. TRADE AGREEMENTS ACT OF 1979, as amended

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING: None

10. SMALL REQUIREMENTS

The minimum dollar of orders to be issued is $100

11. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)

a. The Maximum Order for the following Special Item Numbers (SINs) is $500,000:

Special Item Number 132-8 – Purchase of Equipment
Special Item Number 132-12 – Maintenance of Equipment, Repair Service and Repair/Spare Parts
Special Item Number 132-33 – Perpetual Software License
Special Item Number 132-51 – Information Technology Professional Services

12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS

Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS)

Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS)

Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label

when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2003)

a. Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.

b. Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.

c. Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.

d. Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.

e. Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.

f. Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.

g. Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.

h. Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.

i. Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.

j. Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

k. Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See 52.212-4)

16. GSA ADVANTAGE!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

(1) Manufacturer;
(2) Manufacturer's Part Number; and
(3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is http://www.gsaadvantage.gov

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if**-

(1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));

(2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;

(3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and

(4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

(1) Time of delivery/installation quotations for individual orders;

(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities

of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.

(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

c. The maintenance/repair service provided is the standard commercial terms and conditions for the type of products and/or services awarded.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below: **None**

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or 132-9.

23. SECTION 508 COMPLIANCE

I certify that in accordance with 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794d), FAR 39.2, and the Architectural and Transportation Barriers Compliance Board Electronic and Information Technology (EIT) Accessibility Standards (36 CFR 1194) General Services Administration (GSA), that all IT hardware/software/services are 508 compliant: **Yes, where applicable.**

Section 508 compliance information on the supplies and services in this contract are available at the following website address (URL): http://www.ncst.com/content/section-508

The EIT standard can be found at: www.Section508.gov/.

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

a. A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

b. The following statement:

This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

a. The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

b. Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—

(1) For such period as the laws of the State in which this contract is to be performed prescribe; or

(2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

c. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation

in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at http://www.core.gov.

27. ADVANCE PAYMENTS

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF NEW EQUIPMENT (SPECIAL ITEM NUMBER 132-8) AND MAINTENANCE OF EQUIPMENT, REPAIR SERVICE, AND REPAIR PARTS/SPARE PARTS (SPECIAL ITEM NUMBER 132-12)

1. MATERIAL AND WORKMANSHIP

All equipment furnished hereunder must satisfactorily perform the function for which it is intended.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the Contractor will be obligated to meet the delivery and installation date specified in the original order.

For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT

FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

a. INSTALLATION. When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the ordering activity, at the ordering activity's location, to install the equipment and to train ordering activity personnel in the use and maintenance of the equipment. The charges, if any, for such services are listed below, or in the price schedule:

b. INSTALLATION, DEINSTALLATION, REINSTALLATION. The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8 or SIN 132-9.

c. OPERATING AND MAINTENANCE MANUALS. The Contractor shall furnish the ordering activity with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any equipment that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming equipment at no increase in contract price. The ordering activity must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

NOTE: Please refer to the pricelist for the description of the warranty for each item.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: _____

7. PURCHASE PRICE FOR ORDERED EQUIPMENT

The purchase price that the ordering activity will be charged will be the ordering activity purchase price in effect at the time of order placement, or the ordering activity purchase price in effect on the installation date (or delivery date when installation is not applicable), whichever is less.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

9. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT

When an ordering activity determines that Information Technology equipment will be replaced, the ordering activity shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).

TERMS AND CONDITIONS APPLICABLE TO PERPETUAL SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-33)

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any software that has been tendered for acceptance. The Government may require repair or replacement of nonconforming software at no increase in contract price. The Government must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. GUARANTEE/WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract.

NOTE: Please refer to the pricelist for the description of the warranty for each item.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

3. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number, 1-888-746-4627, is available from 8:30 to 5pm EST. Technical support can also be obtained from the contractor website at www.ncst.com.

4. UTILIZATION LIMITATIONS - (132-33)

a. Software acquisition is limited to commercial computer software defined to be:

COMMERCIAL COMPUTER SOFTWARE - Computer software which is used regularly for other than Government purposes and is sold, licensed or leased in significant quantities to the general public at established catalog prices.

b. When acquired by the Government, commercial computer software and related documentation so legend shall be subject to the following:

(1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.

(2) Software licenses are by site and by agency. An agency is defined as a cabinet level or independent agency. The software may be used by any subdivision of the agency (service, bureau, division,

command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one agency's site. This would allow other agencies access to one agency's database. For Government public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user agency will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user agency's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user agency.

(3) Except as is provided in paragraph 8.b(2) above, the Government shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the government who have the Government's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the Government to use software, documentation, or information therein, which the Government may already have or obtains without restrictions.

(4) The Government shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of disaster recovery, the Government has the right to transfer the software to another site if the Government site for which it is acquired is deemed to be unsafe for Government personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

5. SOFTWARE CONVERSIONS - (132-33)

Full monetary credit will be allowed to the Government when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another. Under a perpetual license (132-33), the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version.

6. DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

7. RIGHT-TO-COPY PRICING

The Contractor shall insert the discounted pricing for right-to-copy licenses

TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)

1. SCOPE

a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.

b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. ORDERING PROCEDURES

a. Procedures for IT professional services priced on GSA schedule at hourly rates.

(1) FAR 8.402 contemplates that GSA may occasionally find it necessary to establish special ordering procedures for individual Federal Supply Schedules or for some Special Item Numbers (SINs) within a Schedule. GSA has established special ordering procedures for IT professional services (SIN 132-51) that are priced on schedule at hourly rates. These special ordering procedures which are outlined herein take precedence over the procedures in FAR 8.404.

(2) The GSA has determined that the rates for IT professional services contained in this pricelist are fair and reasonable. However, the ordering office using this contract is responsible for considering the level of effort and mix of labor proposed to perform a specific task being ordered and for making a determination that the total firm-fixed price or ceiling price is fair and reasonable.

(3) When ordering IT professional services ordering offices shall –

(i) Prepare a Request for Quotation:

(A) A performance-based statement of work that outlines, at a minimum, the work to be performed, location of work, period of performance, deliverable schedule, applicable standards, acceptance criteria, and any special requirements (i.e., security clearances, travel, special knowledge, etc.) should be prepared.

(B) A request for quotation should be prepared which includes the performance-based statement of work and requests the contractors submit either a firm-fixed price or a ceiling price to provide the services outlined in the statement of work. A firm-fixed price order shall be requested, unless the ordering office makes a determination that it is not possible at the time of placing the order to estimate accurately the extent or duration of the work or to anticipate cost with any reasonable degree of confidence. When such a determination is made, a labor hour or time-and-materials proposal may be requested. The firm-fixed price shall be based on the hourly rates in the schedule contract and shall consider the mix of labor categories and level of effort required to perform the services described in the statement of work. The firm-fixed price of the order should also include any travel costs or other incidental costs related to performance of the services ordered, unless the order

provides for reimbursement of travel costs at the rates provided in the Federal Travel or Joint Travel Regulations. A ceiling price must be established for labor hour and time and material orders.

(C) The request for quotation may request the contractors, if necessary or appropriate, submit a project plan for performing the task and information on the contractor's experience and/or past performance performing similar tasks.

(D) The request for quotation shall notify the contractors what basis will be used for selecting the contractor to receive the order. The notice shall include the basis for determining whether the contractors are technically qualified and provide an explanation regarding the intended use of any experience and/or past performance information in determining technical acceptability of responses. If consideration will be limited to schedule contractors who are small business concerns as permitted by paragraph (ii)(A) below, the request for quotations shall notify the contractors that will be the case.

(ii) Transmit the Request for quotation to Contractors:

(A) Based upon an initial evaluation of catalogs and pricelists, the ordering office should identify the contractors that appear to offer the best value (considering the scope of services offered, hourly rates and other factors such as contractors' locations, as appropriate). When buying IT professional services under SIN 132-51 ONLY, the ordering office, at its discretion, may limit consideration to those schedule contractors that are small business concerns. This limitation is not applicable when buying supplies and/or services under other SINs as well as SIN 132-51. The limitation may only be used when at least three (3) small businesses that appear to offer services that will meet the agency's needs are available, if the order is estimated to exceed the micro-purchase threshold.

(B) The request for quotation should be to three (3) contractors if the proposed order is estimated to exceed the micro-purchase threshold, but not to exceed the maximum order threshold. For proposed orders exceeding the maximum order threshold, the request for quotation should be provided to additional contractors that offer services that will meet the agency's needs. Ordering offices should strive to minimize the contractors' costs associated with responding to requests for proposals for specific orders. Requests should be tailored to the minimum level necessary for adequate evaluation and selection for order placement.

(iii) Evaluate proposals and select the contractor to receive the order:

After responses have been evaluated against the factors identified in the request for quotation, the order should be placed with the schedule contractor that represents the best value and results in the lowest overall cost alternative (considering price, special qualifications, administrative costs, etc.) to meet the Government's needs.

(6) The establishment of Federal Supply Schedule Blanket Purchase Agreements (BPAs) for recurring services is permitted when the procedures outlined herein are followed. All BPAs for services must define the services that may be ordered under the BPA, along with delivery or performance time frames, billing procedures, etc. The potential volume of orders under BPAs, regardless of the size

of individual orders, may offer the ordering office the opportunity to secure volume discounts. When establishing BPAs ordering offices shall –

(i) Inform contractors in the request for quotation (based on the agency's requirement) if a single BPA or multiple BPAs will be established, and indicate the basis that will be used for selecting the contractors to be awarded the BPAs.

(A) SINGLE BPA: Generally, a single BPA should be established when the ordering office can define the tasks to be ordered under the BPA and establish a firm-fixed price or ceiling price for individual tasks or services to be ordered. When this occurs, authorized users may place the order directly under the established BPA when the need for service arises. The schedule contractor that represents the best value and results in the lowest overall cost alternative to meet the agency's needs should be awarded the BPA.

(B) MULTIPLE BPAs: When the ordering office determines multiple BPAs are needed to meet its requirements, the ordering office should determine which contractors can meet any technical qualifications before establishing the BPAs. When multiple BPAs are established, the authorized users must follow the procedure in (3)(ii)(B) above, and then place the order with the schedule contractor that represents the best value and results in the lowest overall cost alternative to meet the agency's needs.

(ii) Review BPAs periodically. Such reviews shall be conducted at least annually. The purpose of the review is to determine whether the BPA still represents the best value (considering price, special qualifications, etc.) and results in the lowest overall cost alternative to meet the agency's needs.

(5) The ordering office should give preference to small business concerns when two or more contractors can provide the services at the same firm-fixed price or ceiling price.

(6) When the ordering office's requirement involves both products as well as IT professional services, the ordering office should total the prices for the products and the firm-fixed price for the services and select the contractor that represents the greatest value in terms of meeting the agency's total needs.

(7) The ordering office, at a minimum, should document orders by identifying the contractor the services were purchased from, the services purchased, and the amount paid. If other than a firm-fixed price order is placed, such documentation should include the basis for the determination to use a labor-hour or time-and-materials order. For agency requirements in excess of the micro-purchase threshold, the order file should document the evaluation of schedule contractors' proposals that formed the basis for the selection of the contractor that received the order and the rationale for any trade-offs made in making the selection.

b. Ordering Procedures for other services available on schedule at fixed prices for specifically defined services or tasks.

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering offices need not seek further competition, synopsize the requirement,

make a separate determination of fair and reasonable pricing, or consider small business set-asides in accordance with subpart 19.5. GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures outlined below, the ordering office has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government's needs.

(1) Orders placed at or below the micro-purchase threshold. Ordering offices can place orders at or below the micro-purchase threshold with any Federal Supply Schedule Contractor.

(2) Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold. Orders should be placed with the Schedule Contractor that can provide the supply or service that represents the best value. Before placing an order, ordering offices should consider reasonably available information about the service offered under MAS contracts by using the "GSA Advantage!" on-line shopping service, or by reviewing the catalogs/pricelists of at least three Schedule Contractors and selecting the delivery and other options available under the schedule that meets the agency's needs. In selecting the service representing the best value, the ordering office may consider— (i) special features of the service that are required in effective program performance and that are not provided by a comparable service; and (ii) past performance.

(3) Orders exceeding the maximum order threshold. Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering office to seek a price reduction. In addition to following the procedures in paragraph b, above, and before placing an order that exceeds the maximum order threshold, ordering offices shall--

(i) Review additional Schedule Contractors' catalogs/pricelists or use the "GSA Advantage!" on-line shopping service;

(ii) Based upon the initial evaluation, generally seek price reductions from the Schedule Contractor(s) appearing to provide the best value (considering price and other factors); and

(iii) After price reductions have been sought, place the order with the Schedule Contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

NOTE: For orders exceeding the maximum order threshold, the Contractor may:

(A) Offer a new lower price for this requirement (the Price Reductions clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations);

(B) Offer the lowest price available under the contract; or

(C) Decline the order (orders must be returned in accordance with FAR 52.216-19).

(4) Blanket purchase agreements (BPAs). The establishment of Federal Supply Schedule BPAs is permitted when following the ordering procedures in FAR 8.404. All schedule contracts contain BPA provisions. Ordering offices may use BPAs to establish accounts with Contractors to fill recurring requirements. BPAs should address the frequency of ordering and invoicing, discounts, and delivery locations and times.

(5) Price reductions. In addition to the circumstances outlined in paragraph (3), above, there may be instances when ordering offices will find it advantageous to request a price reduction. For example, when the ordering office finds a schedule service elsewhere at a lower price or when a BPA is being established to fill recurring requirements, requesting a price reduction could be advantageous. The potential volume of orders under these agreements, regardless of the size of the individual order, may offer the ordering office the opportunity to secure greater discounts. Schedule Contractors are not required to pass on to all schedule users a price reduction extended only to an individual agency for a specific order.

(6) Small business. For orders exceeding the micro-purchase threshold, ordering offices should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

(7) Documentation. Orders should be documented, at a minimum, by identifying the Contractor the item was purchased from, the item purchased, and the amount paid. If an agency requirement in excess of the micro-purchase threshold is defined so as to require a particular brand name, product, or feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering office shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the agency's needs.

3. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.

b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.

c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

4. ORDER

a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.

b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

5. PERFORMANCE OF SERVICES

a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

6. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

   (1) Cancel the stop-work order; or

   (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

b. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
   (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
   (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

c. If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

d. If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

7. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS –COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

9. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

10. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

11. ORGANIZATIONAL CONFLICTS OF INTEREST

a. **Definitions:**

"Contractor" means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

"Contractor and its affiliates" and "Contractor or its affiliates" refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

12. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

13. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4

(MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

a. The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

b. The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

(1) The offeror;

(2) Subcontractors; and/or

(3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

14. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

15. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

16. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE

(Insert Customer Name)
In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.
Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.
This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

Ordering Activity	Date	Contractor	Date

BPA NUMBER_____

(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s)_____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____
_____	_____

(2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

(3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

(4) This BPA does not obligate any funds.

(5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
_____	_____
_____	_____
_____	_____

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

(a) Name of Contractor;
(b) Contract Number;
(c) BPA Number;
(d) Model Number or National Stock Number (NSN);
(e) Purchase Order Number;
(f) Date of Purchase;
(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

****

BASIC GUIDELINES FOR USING
"CONTRACTOR TEAM ARRANGEMENTS"

Federal Supply Schedule Contractors may use "Contractor Team Arrangements" (see FAR 9.6) to provide solutions when responding to an ordering activity requirements.
These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.
Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.
Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.
Customers should refer to FAR 9.6 for specific details on Team Arrangements.
Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customer's needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules "Team Solution" to meet the customer's requirement.
- Customers make a best value selection.

USA COMMITMENT TO PROMOTE
SMALL BUSINESS PARTICIPATION
PROCUREMENT PROGRAMS

PREAMBLE

NCS Technologies, Inc. provides commercial products and services to the Federal Government. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protege programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged, and women-owned small businesses to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small business with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in Federal Government contracts. To accelerate potential opportunities, please contact:

11	Washington, D.C.	District of Columbia and the Washington, D.C. Metropolitan Area

SUMMARY OF LABOR CATEGORIES

LABOR CATEGORY NUMBER	POSITION/TITLE
01-01	Management Consultant
02-01	Project Manager
02-02	Task Leader
03-01	Senior Management Information System (MIS) Engineer
03-02	Management Information System (MIS) Engineer
03-03	Senior Telecommunications Engineer
03-04	Telecommunications Engineer
03-05	Senior Network Design Engineer
03-06	Senior Field Engineer
03-07	Field Engineer
04-01	Senior Systems Analyst
04-02	Systems Analyst I
04-03	Systems Analyst II
04-04	Senior Telecommunication and Network Analyst
04-05	Telecommunication and Network Analyst I
04-06	Telecommunication and Network Analyst II
05-01	Senior Lead Programmer
05-02	Lead Programmer
05-03	Programmer I
05-04	Programmer II
05-05	Programmer III
05-06	Senior Systems Programmer
05-07	Systems Programmer I
05-08	Systems Programmer II
05-09	Senior Network Programmer
05-10	Network Programmer I
05-11	Network Programmer II
05-12	Network Programmer III
06-01	Database Administrator
06-02	Network Database Administrator
07-01	Technical Specialist
07-02	Communications Specialist
08-01	Senior Technical Writer
09-01	Computer Operator I
09-02	Computer Operator II
09-03	Network Operator I
09-04	Network Operator II
10-01	Data Technician
11-01	Instructor
12-01	Senior Illustrator
12-02	Illustrator

DESCRIPTION OF FUNCTIONAL RESPONSIBILITIES AND QUALIFICATIONS FOR LABOR CATEGORIES

Category 01-01 MANAGEMENT CONSULTANT

Responsibility: Assuming management oversight responsibilities within the organization or program including planning, monitoring, administering and reporting. Reviewing high-level functional areas of an organization or project. Planning, recommending, and administering management policies in those areas. Developing "strength and weakness" analysis for organizational improvement. Communicating policy, direction, and operational information to the staff. Tools and methods used within the execution of those tasks include conducting interviews, collecting data, and compiling financial and other management reports.

Education and Experience: Minimum of Bachelor degree with ten years of relevant experience or equivalent.

Category 02-01 PROJECT MANAGER

Responsibility: Managing projects with consultation and coordination with Government Contracting Officer and Contracting Officer's Technical Representative (COTR) to accomplish required objectives in a cost-effective and efficient manner. Planning, managing and controlling all aspects of a project including security, resources allocation, timely delivery of deliverables, quality assurance, accounting, budgeting, quality assurance, status reports, contract administration, etc.. Providing a communication channel between the client and corporate management. Resolving problems that may arise during the course of project implementation. Ensuring that all project activities are in full compliance with contractual terms and conditions, and clients are satisfied.

Education and Experience: Minimum of Bachelor degree with ten years of relevant experience or equivalent. Must have demonstrable project management skills and knowledge in Government contract rules and regulations.

Category 02-02 TASK LEADER

Responsibility: Managing and monitoring tasks assigned by the Project Manager including reporting encountered problems and effected solutions. Focusing on the implementation of each task, anticipation of unexpected problems, and identification of effective solutions. Serving as the on-site liaison for the Project Manager to direct employees assigned to work at clients' sites. Providing technical direction and leadership for tasks that are within the areas of expertise. Using own technical expertise to develop solutions for ad-hoc problems that are beyond the skill levels of subordinates. Directing technical personnel such as analysts, programmers, and engineers.

Education and Experience: Minimum of Bachelor's degree in a technical field and five years of relevant experience or equivalent.

Category 03-01 SENIOR MANAGEMENT INFORMATION SYSTEM (MIS) ENGINEER

Responsibility: Analyzing integrated MIS requirements and recommending appropriate solutions. Reviewing client's needs in accounting, purchasing, inventory management, material planning, payroll, electronic commerce, etc.. Determining appropriate database infrastructure based on requirements and budgetary constraints. Reviewing, evaluating and recommending office automation solutions including word processing, spreadsheet, database, graphics, scheduling, and e-mail. Consulting with telecommunication experts to integrate LAN and WAN interfaces into MIS and office automation solutions.

Education and Experience: Minimum of Bachelor's degree in Computer Science or related field and seven years of relevant experience or equivalent. Knowledgeable in programming languages, LAN and WAN technologies.

Category 03-02 MANAGEMENT INFORMATION SYSTEM (MIS) ENGINEER

Responsibility: Implementing MIS solutions. Integrating, installing and setting up software. Debugging problems and engaging manufacturers for technical assistance. Providing training to system administrators and users on newly installed software. Coordinating with network personnel to integrate communication interfaces into MIS system. Implementing database structure.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and three years of relevant experience or equivalent. Knowledgeable in programming languages, LAN and WAN technologies.

Category 03-03 SENIOR TELECOMMUNICATIONS ENGINEER

Responsibility: Analyzing and recommending LAN, WAN and telephony solutions to meet client's telecommunication requirements. Determining the suitability of a LAN and/or WAN technology for the client's environment. Guiding client in selecting customer premise equipment and establishing connection with local and long distance carriers and Internet access provider. Analyzing phone traffic patterns and recommending appropriate telephone systems and services. Recommending strategy for integrating telephone system to a LAN. Supervising the implementation and installation of LAN, WAN and telephone equipment.

Education and Experience: Minimum of Bachelor degree in Computer Science or Electrical Engineering or related fields and seven years of relevant experience or equivalent.

Category 03-04 TELECOMMUNICATIONS ENGINEER

Responsibility: Implementing telecommunication solutions. Installing and configuring LANs including workstations, servers, interconnection equipment. Implementing backup and redundancy strategies. Integrating WAN interfaces and coordinating with telephone and access provider for connection to the Internet. Installing and setting up e-mail and other messaging software. Coordinating installation, configuration and setup of telephone systems and their integration into LANs. Debugging problems encountered and engaging manufacturers for technical assistance.

Education and Experience: Minimum of Bachelor degree in Computer Science or Electrical Engineering or related fields and three years of relevant experience or equivalent.

Category 03-05 SENIOR NETWORK DESIGN ENGINEER

Responsibility: Planning, designing, and supervising the implementation of life cycle voice, data and video solutions for local, wide, and enterprise network solutions including the development, integration, implementations, testing, and monitoring of policies and procedures. Analyzing technical environmental requirements, conferring with research personnel to clarify and resolve problems, presenting feasible alternatives and recommendations based on thorough research and analyses. Planning and developing rapid prototype experimental solutions. Conferring with engineering personnel and preparing design modifications. Conducting interviews with subject matter experts to retrieve essential information. Using computer assisted design software to perform engineering and design tasks. Evaluating engineering test results for practical application. Collecting, compiling, and assembling data for management and technical reports.

Education and Experience: Minimum of Bachelor degree in Computer Science, Electrical Engineering, or related field and ten years of relevant experience or equivalent.

Category 03-06 SENIOR FIELD ENGINEER

Responsibility: Troubleshooting and correcting electronic hardware problems exhibited in timesharing systems, mid-range and microcomputer systems, peripheral data storage devices, digital switching systems, and communications concentrator systems. Problem detection, isolation, and resolution.

***Education and Experience*:** Minimum of Bachelor degree in Electrical Engineering or related field and five years of relevant experience or equivalent.

Category 03-07 FIELD ENGINEER

Responsibility: Troubleshooting and correcting electronic hardware problems exhibited in timesharing systems, mid-range and microcomputer systems, peripheral data storage devices, digital switching systems, and communications concentrator systems. Problem detection, isolation, and resolution.

Education and Experience: Minimum of Bachelor degree in Electrical Engineering or related field and three years of relevant experience or equivalent.

Category 04-01 SENIOR SYSTEMS ANALYST

Responsibility: Analyzing and recommending automated data processing (ADP) solutions for client's problems. Compiling and formulating requirements. Soliciting and analyzing proposals. Planning and implementing the development of system software and enhancements. Designing system architecture, recommending optimal approach, and supervising programmers in the coding efforts. Reviewing, correcting and approving for release system software, documentation, bug fixes, enhancements, etc..

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and eight years of relevant experience or equivalent.

Category 04-02 SYSTEMS ANALYST I

Responsibility: Implementing ADP solutions. Developing or modifying systems or sub-systems to meet new requirements, correct existing problems, or improve operational efficiency. Applying analytical techniques to data collected, extrapolating potential problem identification, developing specifications for computer programs and data structures, and designing procedures to effect the solutions. Verifying that computer programs and data structures implemented by programmers comply with specifications and that software modules are compatible with each other. Assisting Sr. System Analyst on complex assignments. Analyzing methods of approach, reviewing task proposal requirements, gathering information, analyzing data, preparing project synopses, comparing alternatives, resolving processing problem, coordinating works with programmers and orienting users to new systems.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and six years of relevant experience or equivalent.

Category 04-03 SYSTEMS ANALYST II

Responsibility: Applying system analysis techniques and procedures to solve routine specific problems. Using precedent to propose modifications for new problems encountered. Using established procedures to accomplish tasks within pre-defined computing environments including computer equipment, system software, programming languages, communication protocols and operational parameters. Executing specific assignments from superiors including tasks, schedules, deadlines, and periodic status reports.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and four years of relevant experience or equivalent.

Category 04-04 SENIOR TELECOMMUNICATIONS AND NETWORK ANALYST

Responsibility: Analyzing and recommending telecommunication and network solutions for client. Compiling and formulating requirements. Soliciting and analyzing proposals. Planning and implementing the development of network software and enhancements. Designing network architecture and recommending optimal approach. Reviewing, correcting and approving for release works of other network analysts, network system software, documentation, bug fixes, enhancements, etc.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and eight years of relevant experience or equivalent.

Category 04-05 TELECOMMUNICATIONS AND NETWORK ANALYST I

Responsibility: Implementing network solutions. Developing or modifying network systems or sub-systems to meet new requirements, correct existing problems, or improve operational efficiency. Applying analytical techniques to data collected, extrapolating problem identification, developing specifications for network structure, and designing procedures to effect the solutions. Verifying that network structures implemented by engineers comply with specifications. Verifying network software is compatibility. Assisting Sr. Telecommunication and Network Analyst on complex assignments. Analyzing methods of approach, reviewing task proposal requirements, gathering information, analyzing data, preparing project synopses, comparing alternatives, resolving processing problem, coordinating works with other analysts and orienting users to new systems.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and six years of relevant experience or equivalent.

Category 04-06 TELECOMMUNICATIONS AND NETWORK ANALYST II

Responsibility: Applying network analysis techniques and procedures to solve routine specific problems. Using precedent to propose modifications for new problems encountered. Using established procedures to accomplish tasks within pre-defined computing environments including computer equipment, network system software, network topologies, network interconnection devices, communication protocols and operational parameters. Executing specific assignments from superiors including tasks, schedules, deadlines, and periodic status reports.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field and four years of relevant experience or equivalent.

Category 05-01 SENIOR LEAD PROGRAMMER

Responsibility: Serving as an expert programmer specializing in certain computer languages. Managing and coordinating staff of programmers to develop software solutions. Developing, modifying, and maintaining host of complex programs to produce multiple interrelated client/server products operating in open systems environment. Participating as team member in large and complex programming projects. Accepting assignment, completing them timely, and producing compatible and functionally correct software. Supervising and participating in the development of operating instructions. Using programming knowledge to assist in the analysis of client's needs and definition of problems with emphasis in computerized solutions. Functioning as team leader when required to lead other project programmers.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with eight years of relevant experience or equivalent.

Category 05-02 LEAD PROGRAMMER

Responsibility: Using specialized comprehensive advanced technical knowledge to formulate new concepts or methods in programming. Developing low-level programming specifications and interfaces. Defining programming logical structure, writing codes, testing and debugging programs, and integrating modules. Establishing database structure including record layouts and report formats. Specifying data populating methods including data capture forms, data conversion procedures, data validation and correction steps. Specifying user interface including screen layouts, menu structure, and help features. Implementing modifications to existing programs. Documenting programming logic and flows. Preparing progress status reports in both oral and written forms. Providing guidance to other programmers.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with six years of relevant experience or equivalent.

Category 05-03 PROGRAMMER I

Responsibility: Applying optimal programming techniques to develop code for specific functions. Updating, modifying, and maintaining existing programs. Operating within the confines of pre-established specifications to devise logic, coding schemes, and algorithms to accomplish programming tasks. Ensuring that resulting programs are compatible with other modules in the system in accordance with specifications. Testing, debugging, correcting, assisting in independent quality checks and preparing release documents for final products. Writing operator, user and training documentation. Assisting other programmers on an ad-hoc basis to facilitate the timely completion of assigned tasks.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with four years of relevant experience or equivalent.

Category 05-04 PROGRAMMER II

Responsibility: Maintaining existing programs and performing minor modifications to meet new requirements or to correct problems. Working the confines of narrow and complete specifications to accomplish programming tasks. Amending programming code, and documentation. Testing works of other programmers and filing reports.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with three years of relevant experience or equivalent.

Category 05-05 PROGRAMMER III

Responsibility: Coding and testing programming modules in accordance with provided instructions. Working under close supervision and monitoring by superiors. Testing pre-released software for other programmers.

Education and Experience: Minimum of Associate degree and two years of relevant experience or equivalent.

Category 05-06 SENIOR SYSTEMS PROGRAMMER

Responsibility: Specialized systems programming involving operating system, complex I/O subsystems, and utilities. Developing overall specifications for system programming efforts. Selecting the appropriate architecture and programming languages for specific implementations. Operating at the highest technical level on all stages of system programming. Supervising the testing efforts of the final products. Studying its impact on the equipment, users and overall productivity. Determining impact on future compatibility and interoperability. Laying frame work and strategy for migration to future technologies. Making recommendation for changes and executing adopted measures.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with eight years of relevant experience or equivalent.

Category 05-07 SYSTEMS PROGRAMMER I

Responsibility: Developing, modifying and maintaining software programs for the operating system including I/O subsystems and utilities. Writing code based on pre-established specifications. Integrating software modules from team members. Testing, debugging, and correcting finished code. Documenting logic and assisting in the development of operator, user and training material.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with four years of relevant experience or equivalent.

Category 05-08 SYSTEMS PROGRAMMER II

Responsibility: Installing and maintaining operating system software. Implementing enterprise, group, and user policies. Analyzing and correcting encountered problems. Coordinating and enlisting support from manufacturers to resolve problems. Identifying off-the-shelf solutions including hardware and software. Assisting in testing new software and developing customized utilities.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with three years of relevant experience or equivalent.

Category 05-09 SENIOR NETWORK PROGRAMMER

Responsibility: Developing, modifying, and maintaining complex network solutions which support distinct, but interrelated functions. Developing solutions using products form diverse sources, addressing several technologies and having multiple multi-disciplined users. Testing, documenting, and writing operating instructions for all work. Investigating the feasibility of developing alternate program, assisting users with defining needs, or participating on a team to work on large and complicated programs. Reviewing completed work for timeliness, compatibility with other work, and effectiveness in meeting requirements. Functioning as team leader of lower level programmers or technicians on assigned work.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with eight years of relevant experience or equivalent.

Category 05-10 NETWORK PROGRAMMER I

Responsibility: Developing, modifying, and maintaining conventional network programs and documentation. Using standard procedures and detailed specifications to independently devise program logic, modify interrelationship of files and records, diagnose and correct errors, test and document work, and write user and operator instructions.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with four years of relevant experience or equivalent.

Category 05-11 NETWORK PROGRAMMER II

Responsibility: Maintaining and modifying conventional routing programs. Amending code, tests, and documenting network hardware and configuration changes. Writing new software to network applications interface programs. Evaluating simple interrelationships in programs and obtaining information from users to modify routine programs.

Education and Experience: Minimum of Bachelor degree in Computer Science or related field with three years of relevant experience or equivalent.

Category 05-12 NETWORK PROGRAMMER III

Responsibility: Coding and testing simple network programming modules and interfaces in accordance with provided instructions. Working under close supervision and monitoring by superiors. Testing pre-released network software for other programmers.

Education and Experience: Minimum of Associate degree in Computer Science or related field and two years of relevant experience or equivalent.

Category 06-01 DATA BASE ADMINISTRATOR

Responsibility: Managing installed database. Designing the structure of the database and access methods. Formulating standards, procedures and conventions for using the database. Designing policies to protect the integrity of the database including preventing unauthorized access, accidental loss, and intentional damages. Monitoring the usage of data in the database and making recommendations to improve efficiency. Studying new database technologies and planning for their incorporation into the existing one. Analyzing database performance and tuning parameters as required.

Education and Experience: Minimum of Bachelor's degree in Computer Science or related field and three years of relevant experience or equivalent.

Category 06-02 NETWORK DATA BASE ADMINISTRATOR

Responsibility: Managing installed network-distributed database. Monitoring database performance. Designing the structure of the database and access methods. Formulating standards, procedures and conventions for using the database. Designing policies to protect the integrity of the database including preventing unauthorized access, accidental loss, and intentional damages. Monitoring the usage of data in the database and making recommendations to improve efficiency. Reviewing new database technologies and planning for their incorporation into the existing one.

Education and Experience: Minimum of Bachelor's degree in Computer Science or related field and three years of relevant experience or equivalent.

Category 07-01 TECHNICAL SPECIALIST

Responsibility: Possessing sufficient skills and knowledge to work independently in the area of expertise including a specific software language or product, software technique or methodology, type of application, hardware/operating system environment, or any combination thereof to support voice, data and video applications. Performing tasks involving system development, maintenance including requirement analysis, program development and testing, problem analysis, system tuning and enhancement.

Education and Experience: Minimum of Associate degree in Computer Science and four years of relevant experience or equivalent.

Category 07-02 COMMUNICATIONS SPECIALIST

Responsibility: Providing technical guidance in telecommunication activities. Generating, reviewing, evaluating, and recommending specifications for data communication equipment and software. Formulating network and telephone requirements. Providing technical advisory assistance pertaining to the design, development and installation of unique data transmission systems. Developing procedures governing the operation and management of data communications programs and systems. Reviewing and developing telecommunication policies, procedures, and standards.

Education and Experience: Minimum of Bachelor degree in Computer Science, Electrical Engineering, or related field and ten years of relevant experience or equivalent.

Category 08-01 SENIOR TECHNICAL WRITER

Responsibility: Writing and editing technical material including operator, user, and training reference manuals. Preparing graphic illustration specifications. Interacting with technical professionals to gather information for the preparation of manuals.

Education and Experience: Minimum of Bachelor degree and four years of relevant experience or equivalent.

Category 09-01 COMPUTER OPERATOR I

Responsibility: Performing complex tasks in computer operations. Setting up, coordinating and monitoring a computer system. Setting up and operating peripheral equipment and maintaining operating records

Education and Experience: Minimum of Associate degree or equivalent and four years of relevant experience or equivalent.

Category 09-02 COMPUTER OPERATOR II

Responsibility: Performing routine tasks in computer operations. Inputting data from source documents into a data entry device. Extracting, cross referencing, and preparing data for entry. Compiling charts and other statistical reports. Maintaining files and records.

Education and Experience: Minimum of High School diploma or equivalent and two years of relevant experience or equivalent.

Category 09-03 NETWORK OPERATOR I

Responsibility: Performing complex tasks in network management operations. Setting up, coordinating and monitoring file, print and application servers. Setting up and operating network peripheral equipment and maintaining operating records

Education and Experience: Minimum of Associate degree or equivalent and four years of relevant experience or equivalent.

Category 09-04 NETWORK OPERATOR II

Responsibility: Performing routine tasks in network management operations. Assisting in setting up, coordinating and monitoring file, print and application servers that automatically process and prepare reports for business, engineering or scientific records. Assisting in setting up and operating network peripheral equipment and maintaining operating records

Education and Experience: Minimum of High School diploma and two years of relevant experience or equivalent.

Category 10-01 DATA ENTRY TECHNICIAN

Responsibility: Inputting data from source documents into a data entry device. Extracting, cross referencing, and preparing data for entry. Compiling and summarizing charts, graphs, and other statistical reports. Maintaining files and records.

Education and Experience: Minimum of High School diploma or equivalent and one year of relevant experience or equivalent.

Category 11-01 RESERVED

Category 12-01 SENIOR ILLUSTRATOR

Responsibility: Working with technical writing personnel to prepare operator, user, and other reference manuals. Supervising other illustrators to accomplish requires tasks. Creating graphic art, mechanical drawings, line arts, slides, covers, and graphs. Processing films and producing special effect slides and view graphs. Designing report and manual covers. Producing presentation and briefing material with special graphic effects. Consulting with team members on graphic techniques.

Education and Experience: Minimum of Associate degree and three years of relevant experience or equivalent.

Category 12-02 ILLUSTRATOR

Responsibility: Working with technical writing personnel to prepare operator, user, and other reference manuals. Creating graphic art, mechanical drawings, line arts, slides, covers, and graphs. Processing films and producing special effect slides and view graphs. Designing report and manual covers. Producing presentation and briefing material with special graphic effects. Consulting with team members on graphic techniques.

Education and Experience: Minimum of High School diploma or equivalent and one year of relevant experience or equivalent.
