This is achieved by combining our wide breadth of services, customer service, scalability, and accessibility with the customer's existing infrastructure. Using FedEx Kinko's advanced, hi-tech hardware and software, together we will create a partnership that will ensure the most cost-effective and customer-responsive service possible.

SPECIAL NOTICE TO AGENCIES **Small Business Participation**

Small Business Administration (SBA) strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation, SBA policy allows agencies to include in their procurement base and goals the dollar value of orders expected to be placed against the Federal Supply Schedules and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage! online shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage! , and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

**TERMS AND CONDITIONS APPLICABLE TO DOCUMENT PRODUCTION SERVICES SPECIAL
ITEM NUMBER 51-505**

Scope of Work

The Federal Supply Service provides GSA Schedule contractors capable of servicing the Government's requirements for Document Production services (DPS). Contractors shall provide federal activities with a practical turnkey solution to their requirements for the full-range of reproduction and management of document services.

Depending on the nature of the customer's requirement, a preliminary Needs Assessment and Analysis Service (NAAS) may be required in order to assess the extent of the customer's requirement to fulfill the customer's need for DPS. The primary purpose of the NAAS is to provide professional support in ascertaining and developing the most appropriate and cost efficient methodology to accomplish the customer's DPS requirement.

The proposed approach may include, but is not limited to, skilled personnel necessary to complete the effort, equipment (government owned, state of the art, remanufactured, or otherwise). The contractor shall submit to the Contracting Officer a complete written report specifying the recommended DPS. The report shall address, but is not limited to the operational management support services, overall projected cost, and a milestone schedule for acquiring and/or deploying the necessary resources to complete the effort.

General Requirements

This contract shall not be used for printing services or related supplies that are in accordance with FAR 8.8.

- (a) *Document Production Services (DPS)* DPS requirements typically provide for reproduction of documents. Offerors shall provide the appropriate skilled personnel and methodology to address the customer NAA or Task Order requirements to implement DPS. A typical document production service includes such services as copying, fax, high quality digital color copying, large format scanning and copying, facilities management, desk top transmission, on-going equipment maintenance and quarterly reports. Government agencies and activities are the customers and requiring activities that initiate the DPS to be performed. DPS requirements are delineated in task orders by customer agencies. Task orders specify the actual DPS to be performed, the dollar value of the contract, period of performance and any other significant factors relative to the requirement. Contractors are advised to confer with customer agencies to ensure compliance with laws, regulations, security clearances etc. prior to implementing the task order.
- (b) *Quality Control/Tracking System* Offerors must possess a quality control system that monitors and ensures the quality of DPS. Such a system shall ensure the highest quality of the impressions or finished DPS on the medium produced by the contractor. Offerors shall have demonstrated past performance history applying contemporary quality control techniques and measures performed on comparable DPS jobs that describes how it will monitor job status, delivery or turn-around time and finished product. Additionally, Offerors shall safeguard the Government's records at all times onsite and offsite.
- (c) *Performance Standards* - Performance standards may be required by customer agencies. Contractor performance standards shall be commensurate with commercial application of standards for a typical DPS requirement. The application of standards may cover job turn-around time, maximum number of impressions per day, month or hour; output quality of the mediums, management of consumable supplies, submission of periodic reports and any other factors of significance to the customer agency.
- (d) *Security* -- Some agencies may require various contractor personnel to obtain a security clearance before receiving access to facilities and information. Security clearances, when required on individual orders, will be obtained at the contractor's expense.
- (e) *Equipment* -- At the discretion of the agency, the equipment necessary to implement DPS may be newly installed or existing government owned property. The equipment may also be installed in government locations under Lease-to-Ownership Plans depending upon the using activity's need, and requirements per task order.

The copier equipment may range from low volume to high volume copiers, digital color photocopiers, scanners and other equipment types relative to DPS. Offerors may be required to possess Electronic Data Interchange (EDI) capability for the purpose of receiving, processing, auditing, storing and transmitting electronic data for DPS purposes. In addition, Internet and or personal computer capability may be required.

- (f) *Government Furnished Property* -- The offeror's proposal must state whether such equipment can be furnished or whether it is relying on Government furnished property. For services rendered on Government property, at a minimum, the Government will provide the required space and electricity. Any additional equipment will be determined at the time the task order is placed.

Contractors shall be responsible for all costs associated with machine repairs and supplies (for example, toner, paper clips, rubber bands, clamps, etc.), and ordering, delivery and storage of all supplies, the installation and removal of all equipment, and maintenance.

- (g) *Equipment Maintenance Requirements* -- The Contractor shall have sole responsibility for maintaining copiers furnished by the contractor and government owned equipment under the resulting contract.
- (h) *Replacement of Equipment* -- The Contractor is responsible for replacing equipment, however under no circumstance does the Contractor have the right to charge any additional costs to the buying agency.
- (i) *Personnel/Requirements* -- The contractor shall determine staffing requirements in accordance with the Needs Assessment Analysis (NAA) or the volume of duplicating to be completed on any given day.

Contractors under this Multiple Award Schedule shall provide the necessary skilled personnel including management, supervisory and administrative levels to implement the DPS per customer task order. At a minimum the Contractor shall provide for a Project Manager and Duplicating Production Operator. The Project Manager shall serve as the contractor's point of contact and shall be responsible for the management and coordination of the project.

The contractor shall ensure that the duplicating facility is adequately staffed and fully operational in accordance with the terms of the task order and shall keep the ordering agency fully advised of any difficulties, which would adversely affect production. The Project Manager shall also be responsible for problem resolution that may result from the operation of the duplicating services.

Replacement of Personnel: The Contractor shall provide substitute personnel to perform in the absence (sick leave or vacation) of the On-Site Manager and duplicating production personnel assigned. Substitutes shall perform in complete compliance with the specifications of the individual task order.

- (j) *Experience/Training* -- The contractor shall be responsible for training its employees. The Contractor shall provide skilled personnel capable of operating the required types of equipment.
- (k) *Appearance/Character* -- Contractor personnel shall present a neat appearance and provide services in a professional and courteous manner while complying with agency applicable rules, regulations, and procedures.
- (l) *Location and Hours of Work*
- (1) Location: Services may be rendered worldwide as determined by individual task orders. The services may be performed on-site or off-site/ the vendor's place of business. The offeror's proposal therefore shall indicate the extent of its capability to implement a DPS requirement at its own facility.
- (2) On-Site DPS: The Government will provide the space (the Premises) designated by the using agency. The Contractor shall make all improvements required to the space at the Contractor's own expense.

The facility shall be kept in an orderly fashion with supplies stored in a safe manner. The Contractor shall be responsible for securing supplies and equipment after regular working hours. Any losses or damage due to unauthorized use of equipment or supplies shall be borne by the contractor.

- (3) Off-site DPS: The Contractor shall provide the address for the off-site location. Deliverables shall be F.O.B. Destination.
- (4) Hours of Work: Generally, the facility will be operational between the hours of 7AM and 5PM, Monday through Friday, except Federal holidays. As an alternative, the ordering agency's individual task order may require the contractor to operate a shift outside of these hours or on weekends in order to meet duplicating requirements. These alternative shifts must be coordinated with the ordering agency in advance to provide building security.

Job requests can be made in person, by mail, by telephone, or by fax. No additional charge, service charge, or any other fee shall be imposed for accepting a request by any method set forth above.

SUGGESTED FORMATS FOR BLANKET PURCHASE AGREEMENTS

**BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE
(Insert Customer Name)**

In the spirit of the Federal Acquisition Streamlining Act (Ordering Activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

BASIC GUIDELINES FOR USING CONTRACTOR TEAM ARRANGEMENTS

Federal Supply Schedule Contractors may use Contractor Team Arrangements (see FAR 9.6) to provide solutions when responding to ordering activity requirements. These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts. Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract. Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors. Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules Team Solution to meet the customer s requirement.
- Customers make a best value selection.
