## CLUSTER BOX UNITS - FRONT LOADING

Made of heavy duty aluminum, 3300 series U.S.P.S. approved pedestal cluster box units (CBU's) are accessed from the front through two (2) easy opening master door panels. The durable and corrosion resistant units feature a durable powder coated finish available in six (6) contemporary colors and can be mounted on the optional pedestals (#3385 for #3316 and #3313 and #3395 for #3308 and #3312) or a base of your choice. Each aluminum door includes a heavy duty five (5) pin cylinder cam lock with a dust/rain shield and three (3) keys. One additional compartment in each unit is identified as an "Outgoing Mail" receptacle and includes a weather protection flap and a 11-1/2" W x 3/4" H mail slot. Each unit includes one or two (2) fully integrated parcel lockers.

# 4C Standard Horizontal Mailboxes

**GSA PRICING**  
**25% off listed prices**

## 4C STANDARD HORIZONTAL MAILBOXES FRONT OR REAR LOADING

Made of heavy gauge aluminum and stainless steel hardware, Salsbury 3700 series U.S.P.S. approved 4C standard horizontal mailboxes and fully integrated or stand-alone parcel lockers are manufactured to meet the specifications of U.S.P.S. standard 4C which was created to provide a higher level of mail security. Each standard mailbox door (MB1) is 13-1/4" W x 3-1/4" H and includes a heavy duty five (5) pin cylinder cam lock with a dust/rain shield and three (3) keys. 4C standard horizontal mailbox units with standard mailbox doors and parcel lockers are available in configurations that are one door wide (single column) and two (2) doors wide (double column). Units are also available in 15, 13, 11, 9, 7, 5 and 3 equivalent standard mailbox door heights. Fully integrated and stand-alone parcel lockers are available in 5 and 6 equivalent standard mailbox door heights. U.S.P.S. standard 4C requires a minimum of one parcel locker for every ten (10) tenant compartments. Units feature a durable powder coated aluminum finish and include factory installed 1/2" W x 1/4" D trim. A compartment equivalent to two (2) 3-1/4" high standard doors is used for outgoing mail collection. The compartment is labeled "Outgoing Mail" and includes a 10-3/4" W x 3/4" H mail slot and a weather protection hood. 4C standard horizontal mailboxes are designed for indoor and outdoor use and are ideal for apartments, residential communities, commercial buildings and many other applications.

### If Front Loading:

Units include one or two (2) master door(s) that swing(s) on continuous integral hinges. The two (2) high outgoing mail compartment includes the U.S.P.S. master lock access door and cannot be used for mail distribution. The rear of the unit incorporates a solid closed back.

### If Rear Loading:

The front of the two (2) high outgoing mail compartment is comprised of two (2) fixed panels and there is no U.S.P.S. master lock access door. The rear of the unit incorporates one or two (2) heavy duty access door(s) with latches and continuous hinges.

## 4C CUSTOM HORIZONTAL MAILBOXES FRONT OR REAR LOADING

Made of heavy gauge aluminum and stainless steel hardware, Salsbury 3700 series U.S.P.S. approved 4C custom horizontal mailboxes and fully integrated or stand-alone parcel lockers are manufactured to meet the specifications of U.S.P.S. standard 4C which was created to provide a higher level of mail security. 4C custom horizontal mailboxes and parcel lockers are available in configurations that are one door wide (single column) and two (2) doors wide (double column). Units can be configured with a combination of four (4) mailbox door sizes and two (2) parcel locker door sizes to meet your custom requirements (please submit required layout). Each mailbox door includes a heavy duty five (5) pin cylinder cam lock with a dust/rain shield and three (3) keys. A compartment equivalent to two (2) 3-1/4" high standard doors must be reserved in each mailbox unit for outgoing mail collection and the carrier access door on front loading units. This compartment must be situated in the designated position – see the diagrams on pages 6 and 7 for illustrations of the designated position of this compartment in their respective heights. The compartment is labeled "Outgoing Mail" and includes a 10-3/4" W x 3/4" H mail slot and a weather protection hood. Units feature a durable powder coated aluminum finish and include factory installed 1/2" W x 1/4" D trim. Custom colors are available as an option upon request. 4C custom horizontal mailboxes are designed for indoor and outdoor use and are ideal for apartments, residential communities, commercial buildings and many other applications.

### If Front Loading:

Units include one or two (2) master door(s) that swing(s) on continuous integral hinges. The two (2) high outgoing mail compartment includes the U.S.P.S. master lock access door and cannot be used for mail distribution. The rear of the unit incorporates a solid closed back.

### If Rear Loading:

The front of the two (2) high outgoing mail compartment is comprised of two (2) fixed panels and there is no U.S.P.S. master lock access door. The rear of the unit incorporates one or two (2) heavy duty access door(s) with latches and continuous hinges.

Custom double column front loading unit with aluminum finish displayed

**HIGH SECURITY  
Mailboxes**

## ORDERING A 4C CUSTOM HORIZONTAL UNIT

Following simple guidelines, custom units can be configured with a combination of varying sizes of mailbox doors and parcel locker doors.

Custom units can accommodate mailbox doors from 1 high (3-1/4") to 4 high (13-3/4") and parcel locker doors either 5 high (17-1/4") or 6 high (20-3/4"). Custom units are available for both front and rear loading applications.

Custom units are available in equivalent standard mailbox door heights of 15, 13, 11, 9, 7, 5 and 3. The carrier door / outgoing mail slot (OM2) must be situated in the designated position. See the diagrams on pages 6 and 7 for illustrations of the designated position of the carrier door / outgoing mail slot (OM2) in their respective heights.

Single or double column units can be configured from a minimum of three (3) standard 1 high mailbox doors to a maximum of fifteen (15) standard 1 high mailbox doors including both mailboxes and parcel lockers. Mailboxes are only permitted in the top eleven (11) one high mailbox positions but parcel lockers may be positioned anywhere. U.S.P.S. standard 4C requires a minimum of one (1) parcel locker for every ten (10) tenant compartments.

- 1) Determine the number of openings required using MB1, MB2, MB3 and MB4 mailbox doors and PL5 and PL6 parcel locker doors.
- 2) Configure your requirements into a single or double column unit and into unit door heights of 15, 13, 11, 9, 7, 5 or 3. Specify front or rear loading. The carrier door / outgoing mail slot (OM2) must be situated in the designated position – see the diagrams on pages 6 and 7 for illustrations.
- 3) Contact us for rough opening dimensions and layout specifications.

Parcel lockers (PL's) can be fully integrated into the 3700 series 4C custom horizontal mailbox units and are also available as separate stand-alone units. A minimum of one parcel locker is required for every ten (10) tenant compartments. Parcel lockers are not required for installation sites with less than ten (10) tenant compartments. Parcel lockers are fit with a two (2) key security system that allows the U.S.P.S. to deliver a parcel to the locker and place a parcel locker key in the recipient's mailbox.

**SAMPLE INSTALLATION**

Models displayed:  
(2) 3700 Series  
Custom Front Loading Units

Note: For U.S.P.S. serviced installations, the tenant locks in the top row of mailboxes must be no more than 67" above the finished floor and the bottom shelf of the lowest row of mailboxes must be no less than 28" above the finished floor. The U.S.P.S. master access lock must be a minimum of 36" and a maximum of 48" above the finished floor. The bottom shelf of parcel lockers must be at least 15" above the finished floor.

\$2.00 per key

# 4B+ Custom Horizontal Mailboxes

**GSA PRICING**  
**25% off listed prices**

## 4B+ CUSTOM HORIZONTAL MAILBOXES FRONT OR REAR LOADING

Made entirely of aluminum, Salsbury 3600 series U.S.P.S. approved 4B+ custom horizontal mailboxes are available in four (4) different mailbox door sizes and three (3) different parcel locker door sizes. Each aluminum mailbox door includes a five (5) pin cylinder cam lock with two (2) keys and a 2" W x 5/8" H clear plastic card holder (card included) to identify the tenant's name and/or box number. The mailbox compartments are made of sheet aluminum. 3600 series 4B+ custom horizontal mailboxes can integrate different combinations of mailbox and parcel locker doors and include a standard aluminum finish. Custom colors are available as an option upon request. Matching collection units (5, 6 and 7 doors high) are also available. Custom horizontal mailboxes are ideal for apartments, condominiums, commercial buildings, colleges and schools and many other applications.

### If Front Loading:

Door panel swings on a continuous hinge. One mailbox opening (A and B doors only) is required for a master postal or commercial lock and cannot be used for mail distribution. Units include factory installed 3/4" W x 1/4" D trim and a solid rear cover.

Custom front loading unit with standard aluminum finish displayed

### If Rear Loading:

Mailboxes can be used for either U.S.P.S. access (master postal lock not required) or private access (master commercial lock not required). All openings are usable. Units include factory installed 3/4" W x 1/4" D trim and a removable rear cover.

**PARCEL LOCKERS (PL's)** can be integrated into a 3600 series mailbox system and are a convenient way to receive packages on site. Parcel lockers are fit with a two (2) key security system that allows the U.S.P.S. or an individual to deliver a parcel to the locker and place a parcel locker key in the recipient's mailbox. Once the recipient opens the parcel locker, the key is automatically retained in the lock until it is removed with a control key.

See sample installation on page 11

## ORDERING A 4B+ CUSTOM HORIZONTAL UNIT

- Determine the number of openings required using A, B, C, and D mailbox doors and PL2, PL3 and PL4 parcel locker doors.
- Configure requirements to fit a minimum of 2W x 3H standard A doors to a maximum of 5W x 7H standard A doors.
- Contact us for rough opening dimensions or layout specifications.

### SAMPLE FRONT LOADING UNIT

- (trim not shown)
- 3 - 3600 A doors (2 usable)      2 - 3600PL2
  - 1 - 3600 B door                      1 - 3600PL3
  - 2 - 3600 C doors                      1 - 3600PL4
  - 1 - 3600 D door

Note: There is a 1/4" vertical space between doors shown above.

## STANDARD SYSTEM REAR LOADING

Salsbury 2200 series standard system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a five (5) pin cylinder cam lock with two (2) keys. Standard system aluminum mailbox units are designed to stack two (2) high and mount adjacent to each other or between wall studs. All units have the same outside dimensions. Alternative locking systems are available - see page 21 for options. The mailbox compartments have open backs (hinged locking rear covers #2250 are available as an option upon request) and are constructed of 20 gauge steel. Aluminum mailboxes (standard, rack ladder and data distribution systems) are ideal for use in colleges and schools, private postal centers, government agencies, corporate mailrooms, military bases, police stations and many other applications.

# Aluminum Mailboxes - Rack Ladder System

**GSA PRICING**  
**25% off listed prices**

## RACK LADDER SYSTEM - REAR LOADING

Salsbury 2200 series rack ladder system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a five (5) pin cylinder cam lock with two (2) keys. The mailbox compartments have open backs (rear covers #2251 are available as an option upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Rack ladder system aluminum mailbox units are designed to be installed between rack ladders (#2200). The rack ladders support five (5) mailbox units to form a column of mailboxes. These units can be accessed by the U.S.P.S. when used in Rotary Mail Centers (see page 26).

2212

2208

## PARCEL LOCKERS

Salsbury 2200 series parcel lockers offer tenants a convenient way to receive packages on site and are fit with a two (2) key security system. When the U.S.P.S. or an individual delivers a parcel to the locker, a parcel locker key is placed in the recipient's mailbox. Once the recipient opens the parcel locker, the key is automatically retained in the lock until it is removed with a control key. The units have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish and are equipped with a hinged rear door which allows access from the rear. Parcel lockers are designed to fit into the rack ladder and data distribution systems (see pages 20 and 21) and Free-Standing Mail Centers (see pages 26 and 27).

## DROP BOXES

Salsbury 2200 series drop boxes have a 1/4" thick extruded aluminum solid front with a durable powder coated aluminum finish. The one compartment drop box (#2280) has a 16" W x 3/4" H mail slot. The two (2) compartment drop box (#2282) has two (2) 9" W x 3/4" H mail slots. Drop boxes have a 4" high rear panel to contain the mail. Locking rear covers (#2285) are available as an option upon request. Drop boxes are designed to fit into the rack ladder and data distribution systems (see pages 20 and 21) and Free-Standing Mail Centers (see pages 26 and 27).

# Aluminum Boxes - Data Distribution System

**GSA PRICING**  
**25% off listed prices**

## DATA DISTRIBUTION SYSTEM PRIVATE ACCESS

Salsbury 2400 series data distribution system aluminum boxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a 3/4" high door slot, a five (5) pin cylinder cam lock with two (2) keys and is hinged horizontally at the bottom. Alternative locking systems are available - see page 21 for options. Doors are available without slots upon request. The compartments have open backs (rear covers #2451 are available as an option upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Data distribution system boxes are designed to be installed between rack ladders (#2400). The rack ladders support five (5) units to form a column of boxes. Data distribution system boxes can also be used in Free-Standing Mail Centers (see pages 26 and 27).

2406

## BRASS MAILBOXES

PRIVATE  
ACCESS R

### REAR OR FRONT LOADING

Salsbury 2000 series brass mailboxes have solid brass die-cast doors which include a five (5) pin cylinder cam lock with two (2) keys, a clear 1/4" thick glass window and a name plate to identify the tenant's name and/or box number. The doors are hinged on brass frames and are attached to the individual compartments with four (4) screws. The mailbox compartments are constructed of 20 gauge steel and powder coated tan. They are designed to stack two (2) high and mount adjacent to each other or between wall studs. All units have the same outside dimensions. Rear loading units can be accessed by the U.S.P.S. when used in Rotary Mail Centers (see page 26).

#### If Rear Loading:

Units have open backs. Hinged locking rear covers (#2050) are available as an option upon request.

#### If Front Loading:

Units include solid rear covers. Two (2) master commercial locks with two (2) keys (#2092) open a door panel that swings on a continuous hinge. All openings are usable.

# Free-Standing Mail Centers

**GSA PRICING**  
**25% off listed prices**

## ROTARY MAIL CENTERS USPS ACCESS or PRIVATE ACCESS R

Constructed of 16 gauge steel, 3100 series Rotary Mail Centers feature a vinyl finish available in five (5) contemporary colors. Aluminum style Rotary Mail Centers (#3100) are designed to accommodate a combination of five (5) aluminum rack ladder system mailboxes and data distribution system boxes (see pages 18-21). Brass style Rotary Mail Centers (#3150) are designed to accommodate a combination of two (2) brass or Americana style rear loading mailbox units (see pages 22-25). To operate, the user unlocks the unit and rotates the inner cabinet 180 degrees so that the rear of the mailboxes are facing the front (see below). After distributing the mail, the inner cabinet is rotated back 180 degrees to the tenant access position. A matching rear cover (#3125) is available as an option upon request. Heavy duty Rotary Mail Centers are ideal in locations where a secure and professional mailbox system is desired.

**ROLL-A-BOUTS** PRIVATE ACCESS

Made of 18 gauge steel, Salsbury 2300 series Roll-A-Bouts include casters for mobility and are useful when space is limited as wall construction is not required. Roll-A-Bouts are rear loading and feature a durable powder coated finish. Aluminum style Roll-A-Bouts (#2300) are designed to accommodate a combination of five (5) aluminum rack ladder system mailboxes and data distribution system boxes (see pages 18-21) and are powder coated black. Brass style Roll-A-Bouts (#2350) are designed to accommodate a combination of two (2) brass or Americana style rear loading mailbox units (see pages 22-25) and are powder coated tan. Units include a large rear door and are locked by placing a standard padlock (order optional keyed padlock #2390 - \$10.00) through a steel hasp and are an excellent way to add a private postal center to an existing business.

## PEDESTAL DROP BOXES PRIVATE ACCESS

Made entirely of aluminum, Salsbury 4200 series pedestal drop boxes are available in three (3) different sizes. Model #4275 is 15-3/4" wide, model #4276 is 23" wide and model #4277 is 30-1/4" wide. All pedestal drop boxes are the same height (27") and depth (19"). Standard units are accessed from the rear through a two (2) point latching master door on the #4275 and two (2) master doors on the #4276 and #4277. Each door swings open over 90 degrees for unloading convenience. Standard units include a locking "T" handle (#4290) on the rear door(s), a weather protection hood and a mail flap on the front of the unit. The pedestal drop boxes feature a durable powder coated finish available in three (3) contemporary colors (or primer) and can be mounted on the optional aluminum pedestal (#4285) or a base of your choice. Custom options (#4280 - see page 33) and custom colors (#4205) are available upon request.

## DESIGNER ROADSIDE MAILBOXES - U.S.P.S. APPROVED

Made entirely of aluminum, Salsbury U.S.P.S. approved 4300 series designer roadside mailboxes feature both a front and rear access locking door. Available in a powder coated bronze, copper, brass and nickel finish, each unit includes an outgoing mail tray, a lock with two (2) keys on each door (keyed alike) and an adjustable burgundy signal flag. Mail is deposited through a non-locking access panel on the front. Designer roadside mailboxes can be mounted on the optional bolt mounted (#4365-D) or in-ground mounted (#4385-D) aluminum pedestals, in-ground mounted aluminum deluxe posts (#4370-D and #4372-D) or a base of your choice. Designer roadside mailboxes can also be mounted in columns, masonry or walls. Designer newspaper holders (#4315-D) and non-locking thumb latches (#4388) are available as options upon request. Designer roadside mailboxes are approved for U.S.P.S. curbside mail delivery.

### Mail

Complete the adjacent order form and mail it to:  
Salsbury Industries, 1010 East 62nd Street, Los Angeles, CA 90001-1598.  
Include check, credit card number or purchase order (subject to credit approval).

### EDI

(Electronic Data Interchange) Salsbury Industries is a trading partner with various government agencies and corporate entities. Contact our accounting department for further information.

## TERMS AND CONDITIONS

- Prices:** Prices are subject to change without notice and do not include applicable taxes. All prices are in U.S. dollars. Minimum order amount is \$25.
- Payment:** Payment must be enclosed with orders from new customers and with custom orders. If a minimum 50% deposit is received (custom orders require full payment in advance), the balance of the order will be delivered COD (certified funds). Purchase orders are accepted from institutions, government agencies and companies with a satisfactory Dun and Bradstreet rating. All credit orders are due 30 days from date of invoice (net 30). All major credit cards are accepted.
- Shipping:** All prices are Freight on Board (FOB) factory. Freight charges will be prepaid, collect or prepaid and added to the invoice (upon approved credit). Most products are in inventory and ship within 24 hours after receipt of an order. Large and/or custom orders vary in shipping times and may be drop shipped from separate locations. Specific shipping dates cannot be guaranteed. Products are generally shipped via U.S. Mail or U.P.S. Next Day Air, 2nd Day Air and expedited deliveries are available. Rates are dependent upon weight, size, destination and products ordered - call for a freight charge quotation. Should an order exceed size and/or weight limitations, motor freight will be used. Freight delivery is curbside. Inside delivery can be arranged for an additional charge. When necessary, equipment is banded and stretch wrapped to pallets. When delivered to the transportation company, shipments become the property of the purchaser. Before acceptance, the extent of any damage should be noted on the bill of lading.
- Materials:** Descriptions and specifications contained in this published literature were in effect at the time the publication was approved for printing. Salsbury Industries reserves the right to discontinue products at any time or change specifications and/or designs without notice and without incurring liability. Listed weights are approximate shipping weights.
- Installation:** Most products are shipped assembled (excluding lockers) and are ready for installation. Framing materials and fasteners shall be furnished by the customer or contractor. When products are for U.S.P.S. access, consult with your local postal authorities regarding local approval and current installation requirements.
- Quotations:** Individual quotations are valid for ninety (90) days. Salsbury Industries reserves the right to alter a quotation at any time and for any reason. Salsbury Industries will not be held responsible for any discrepancies overlooked during the customer's review process. Salsbury Industries also reserves the right to decline an order, in whole or in part, for any reason.
- Dealers:** Dealers are not employees of Salsbury Industries. They are independent contractors whose relationship with Salsbury Industries is that of a customer.
- Returns:** Returned goods will not be accepted without a returned goods authorization (RGA) number from Salsbury Industries and must be shipped freight prepaid to Salsbury Industries, 1010 East 62nd Street, Los Angeles, CA 90001-1598. Products must be returned in their original shipping cartons within fifteen (15) days of receipt and are subject to a 25% restocking charge. Custom orders and orders with options cannot be cancelled and will not be accepted for return, exchange or refund.
- Copyright:** All catalog design, graphics and text, as well as the selection and arrangement thereof, are Copyright © 2008 Salsbury Industries ALL RIGHTS RESERVED. Customers, including dealers and those purchasing directly from Salsbury Industries, may use the catalog in its entirety for the sole purpose of purchasing products contained therein from Salsbury Industries. Any other use of the catalog, including distribution, modification or republication of any portion of the catalog without the prior written consent of Salsbury Industries is strictly prohibited.
- Warranty:** Salsbury Industries provides a one year limited warranty to the original purchaser covering defects in material and workmanship if reported in writing to Salsbury Industries within one year of the delivery date. This warranty is limited to the cost of the products and does not include installation costs, expedited shipping costs, transportation neglect or costs, misuse or alterations by the customer. Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages; as such this limitation and exclusion may not apply to you. Salsbury Industries, at its option, may replace or repair defective products. Returned goods will not be accepted without a returned goods authorization (RGA) number from Salsbury Industries and must be shipped freight prepaid to Salsbury Industries, 1010 East 62nd Street, Los Angeles, CA 90001-1598.
