ECOLOGICAL STATEMENT

At Nightingale Corp., we believe in respecting our employees, our customers, our vendors, and the environment. By respecting our planet's fragile eco-system, we respect our children's future, their children's future.....

Planet Nightingale is our environmental initiative. Our commitment to the environment is expressed in a variety of ways – from making smart choices when it comes to choosing materials and processes, to designing products that are simple, flexible, and durable. It's all about doing more with less.

Nightingale is proud to have developed and promoted an environmental policy long before government instituted mandatory recycling. We are committed to manufacturing our products utilizing methods and materials that help to reduce the adverse impact on our environment.

The basic elements of our plan are to use others' waste (recycled materials) or sustainable sources of raw materials to create our products, to ensure that our products are recyclable, to use as few resources as possible in the manufacturing process, and to ensure that we minimize or eliminate waste and emissions.

We would like our footprint on the world to be very light.
